Duhan Onat Karadayı

Data Scientist · Statistician · Data Analyst

Prague, Czech Republic · +420 722 594 034 · duhanonat@gmail.com · linkedin.com/in/iamonat · du0ks.github.io

PROFILE

BSc Statistics graduate (METU) who takes models from analysis to production: built a trade-opportunity scoring algorithm on UN Comtrade-type data, applied regression, classification, PCA, boosting and time-series methods, and delivered analyses for two public institutions. Strong in Python, R and SQL; deploys on Linux; evaluates LLMs with labelled test sets. MSc student at ČVUT Prague; available for data roles in Czechia.

PROFESSIONAL EXPERIENCE

Technical Solutions Lead — **May 2026 – Present**
İnovakademi (foreign-trade training and consultancy) — *Remote · Prague*

- Work daily with AI coding agents (Claude Code, OpenAI Codex), connected to tools and data through MCP servers, as the core engineering workflow for implementation, testing, automation and infrastructure.
- Prepare market and commercial analyses, UR-GE export-cluster studies and Ministry of Trade-facing reports and presentations for client companies.

Full-Stack Developer & Data Scientist — **May 2025 – Apr 2026**
The Globby (İnovakademi subsidiary) — *Remote*

- Developed an algorithm that identifies country-level trading opportunities for each product from UN Comtrade-type trade data, using ranking and scoring approaches in Python and R.
- Applied regression, classification, PCA, Random Forest, gradient boosting (XGBoost-type) and time-series methods to trade and economic data for market and opportunity analysis.
- Built data pipelines and analytics dashboards; integrated models into backend services on Linux servers with SQL and Python.
- Automated recurring data collection, processing and reporting workflows with Python and SQL.

Data Science Intern — **Oct 2024 – Jan 2025**
Human Resources Office, Presidency of the Republic of Türkiye — *Ankara*

- Analysed multiple HR datasets with regression, MANOVA and clustering; delivered models, visualisations and written interpretation in R, Python, SQL and Excel.
- Wrote reusable Excel and R scripts that were adopted by other departments for routine analyses.

Strategic Planning and Management Intern — **Jun 2023**
TÜBİTAK (Scientific and Technological Research Council of Türkiye) — *Ankara*

- Performed statistical analyses of TÜBİTAK project data using regression and non-parametric tests.
- Designed and developed a work-planning application in Java using object-oriented programming.

EDUCATION

MSc Innovation Project Management — **2026 – 2028 (expected)**
Czech Technical University in Prague (ČVUT), MIAS — *Prague*

BSc Statistics — **Graduated Jul 2026**
Middle East Technical University (METU) — *Ankara*

- Teaching Assistant, Data Analysis for Archaeometry (graduate course): taught R programming and statistical techniques; founding and board member, METU AI Community.
- Coursework: regression, hypothesis testing, multivariate statistics, PCA, clustering, time series, sampling, survival analysis, computational statistics, design of experiments (Minitab).

SKILLS

Programming: Python (pandas, NumPy, scikit-learn) and R (tidyverse), both advanced; SQL, Bash; algorithms and data structures

Statistics: Regression, logistic regression, hypothesis testing, ANOVA/MANOVA, multivariate statistics, PCA, clustering, time series, sampling, survival analysis, design of experiments

Machine learning: Classification, Random Forest, gradient boosting (XGBoost), ranking and scoring models, model evaluation

Data tools: Data pipelines, dashboards, Excel (advanced), Minitab, Linux, Git, Docker

AI: Claude Code, Anthropic API, OpenAI Codex, OpenRouter; MCP, n8n, Microsoft Copilot Studio; LLM evaluation, AI-assisted analysis and automation

Languages: Turkish (native) · English (C1, IELTS 7.5) · Czech (beginner)

PROJECTS

brian — AI planning assistant (live, self-hosted) — Mobile and web app that turns free-form notes into tasks and events via the Claude API; Azure Ubuntu VM, Caddy/HTTPS, passkeys, CalDAV sync; model picked by an evaluation set of hand-labelled real notes.
